BEFORE AND AFTER

Time Line Overview

1940's

Dominic Sr. with his father and brother start a plastering company on Warren Avenue in Dearborn, MI. They start plastering subdivision homes in Dearborn and other neighboring cities.

1950's

D.J. Maltese grows to one of Detroit's largest plastering contractors with over 100 men strong. They complete many commercial projects including "The clouds in the sky" at the Ford Rotunda in Dearborn.

1960's

D.J. Maltese plasters over 25,000 homes in the Detroit Metro area. In 1965 drywall takes over the plastering industry. Dominic Sr. closes the plaster company and starts general contracting.

1970's

Dominic and Joe the sons of Dominic Sr. join their father in the business and they complete their first million dollar project. Dominic Jr. becomes president.

1980's

D.J. Maltese starts building projects as Construction Managers offering Design Build services and completes their first private condos in Dearborn.

1990's

D.J. Maltese completes first major restoration project in Detroit - Detroit Symphony orchestra hall. They also built the world class Whitney restaurant in a turn-of-the-century 4000 SF house as well as their first large 10,000 SF Corporate office building in Dearborn.

2000's

D.J. Maltese completes the first largest brownfield 20 acre development in Dearborn for Kenwal Steel. D.J. Maltese moves to Plymouth and builds four of Plymouth's finest office buildings and many new homes. Dominic's sons Andrew and Christopher join their father in the business.

2010's

D.J. Maltese moves into a renovated boutique office building on Main St. in Plymouth. Also completing a 32 acre industrial development facility in Romulus and then two years later renovates the same building for another company. Daughter Katie joins the family business.
